The phrase "Where there is a Will there is a Way" expresses the idea that if we have enough motivation and desire to achieve something, we will find a way to deal with obstacles or find a solution.

My understanding of this phrase is that our motivation and persistence play an important role in achieving our goals. When we truly want something and are willing to put in the effort, we become more creative and find ways to overcome obstacles.

In my opinion, this proverb means that sometimes people shouldn't give up when they face some problems on their way because if human makes a lot of efforts, he or she will go even through the hardest ordeal.

I think these words can be good advice for people whose troubles can be solved by hard work and time. There are a great amount of situations when challenges intimidate people and they stop going to their aims and, as a result, they can't have enough motivation and determination to reach that life as they want to. On the other hand, humans who have enough courage and determination, who are ready for hard and long work are able to do everything what they dream about. For example, Nick Vujicic was born without arms and legs because of rare genetic disease but he became a famous actor and writer by the presence of mind. Oleg Dal is a popular actor whose life finished after glass of alcohol.
